Heavy duty linerless printer

Industrial metal housing with plastic cover, integrated power supply unit

4 inches (114 mm), 203 or 300 dpi

6 inches (152 mm), 203 dpi

**Freely adjustable paper width:
80 to 152 mm**

**High printing performance:
Up to 60 printouts/minute**

**Sensor-detected:
Paper end, black mark, label gap**

**Paper loading without sticking:
Made easy with Easy Loading technology**

Powerful print engine with GeBE linerless software control, prints up to 200 mm/s.

Special linerless silicon platen roller, also for adhesives with higher tack, easy to change.

High-performance cutter blades with abrasion-resistant anti sticking coating, cutting of many 100,000 tickets without cleaning.

Patented linerless presenter unit, maintenance-free, holds even long tickets after cutting until they are removed.

Illuminated LED bezel with exit sensor, for paper output control.

Service benefits:

- Blades are easy to clean
- Linerless rollers are simple to change
- Print head change with only one screw

200/300 dpi	Resolution	4"	Width
	Easy Loading	6"	Width
USB	Port		optional LAN

Paper rolls up to 180 mm in diameter dispense up to 200 m of paper – almost twice as much as comparable printers.

The housing requires hardly any more floor space than other linerless printers for 4 inch only.

Also for label printing.
